In claim 1:

It is unclear what is meant by the statement “a header area recorded as a multi-modulated signal”, line 3. Also, it is unclear as how a header area is recorded as a multi-modulated signal.

It is unclear where “first through N header information”, line 5, is structurally formed/recorded on the recording medium. Also, The term first through N header information, line 5, lack of structural support.

In claim 11:

The term “the header signal”, line 1, lacks antecedent basic.

In claim 14:

The term first through N header information, line 4, lack of structural support. Also, it is unclear how the first through N header information are related to a multi-modulated header signal. Are they the same signal?

In claim 23:

The term first through N header information, line 5, lack of structural support. Also, it is unclear how the first through N header information are related to a multi-modulated header signal. Are they the same signal?

In claim 31:

It is unclear why a third header information, line 5, are modulated since it has never been used later in the claim.

In claim 33:

The term first and second header information, line 5, lack of structural support. Also, it is unclear how the first through N header information are related to a multi-modulated header signal. Are they the same signal?

Allowable Subject Matter

2. Claims 1-5, 7-17, 19-28 and 31-33 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
3. Claims 29 and 30 are allowed.
